Data Field	Guidance
Date of DTA	This is the date within which the decision to admit (DTA) has been made. For repatriation referrals or non-12hr pathways where an organisation may wish to measure 'days delayed' from referral to admission, then DTA date should be selected by itself and the DTA time field be left incomplete.
Time of DTA	This is the time of the DTA decision which is based upon the first clinical decision to admit this initiates the 12hr pathway clock
Mental Pathway	Please select the initial pathway for mental health admission referral. If there is a change following further assessment or due to other circumstances, please update with the option (within the drop down list) that results the mental health pathway journey for the patient until definitive placement is made. E.g., if a patient presents informally but then is required to be placed on Section 2 select the option reflecting that journey.
Date Left ED / Other Setting	This is the date the patient left ED or any other setting. This must be completed to stop the DTA clock if DTA time and date have been selected
Time Left ED / Other Setting	This is the time the patient left ED or any other setting. This must be completed to stop the DTA clock if DTA time and date have been selected
Reason For Delays / Action Log	<p>This is the record of actions and escalations undertaken including any pertinent contact details, to place the patient. Please note there should be no person identifiable information and no -clinical detail placed within this section. Also note that this action log does not replace the proper and necessary professional conversations and handovers. This section is purely limited to those actions and escalations required to place the patient and reduce non-clinical hand-offs</p> <p>As a shared record there will be awareness between the organisations nominated in each record of the data.</p>
Contact Details	Any contact details relevant to the case but not those of the patient – this should be limited to contact details of professionals involved in the patient placement, initials/role should be used but not an individual's name
Destination Admitted To	This will be the Trust or private provider or other location that the patient left current location to be admitted or discharge to.
